CURES

The usual cause of Rheumatism is an excess of uric acid in the blood which weakens and acidifies this vital fluid, and prevents the proper amount of nourishment being afforded the muscles, nerves and tendons. The pains and aches of Rheumatism may be temporarily relieved by the use of liniments, hot applications, and other external treatments, but the disease cannot be permanently benefited by such measures, and is bound to become chronic and dangerous if such things are depended upon alone. S.S.S. cures Rheumatism in the only way it is possible to cure the disease. It goes down into the blood, and removes the uric acid from the circulation so that the nerves, bones, muscles and joints are all lubricated and fed with nourishing matter instead of being constantly irritated and inflamed with the sharp, acrid impurity. When S.S.S. has cleansed and purified the blood the pains and aches cease, all inflammation disappears, and this will be a clean city The Au- stiffened muscles are made supple, and every symptom of Rheumatism tope is heart and sont for greater passes away. Book on Rheumatism and medical advice free to all. the beart and sont for greater passes away.
